THE CIRCUS IS HERE

Sun Bros' big circus arrived in this city early this morning and is now getting in shape to give us two good shows this afternoon and night. It is the first circus we have had for some time.

The Ladies' Aid Society of the First Baptist Church will meet with Mrs. Mary Lane Wednesday evening at 7:30. A full attendance is desired.

Why not try a Ledger Want Ad?

P. T. A. POSTPONED

The First District P. T. A. meeting has been postponed until Friday. As this is the last meeting of the year and time for election of officers, we hope to have every member present.

Messrs. William Wood, Dimmitt Knight and William O. Davis have been appointed a committee by the Official Board of the Third Street M. E. Church to make the necessary repairs to the furnace there and get it in good shape for the coming cold weather.

REGISTRATION NOTICE

All male persons residing in the county of Mason, who have, since the fifth day of June, 1917, attained the age of twenty-one years, shall be subject to registration in accordance with regulations prescribed by the president.

Each person will present himself to the Local Board for Mason County at Postoffice Building between 7 a. m. and 9 a. m. on June 5, 1918.

Mason County Local Board.
SHERMAN ARN, Chairman.

THE GIRL BY THE ROADSIDE

Featuring Violet Mersereau in a thrilling story of a gang of counterfeiters in old Virginia and a girl who tries to save them to save her good name. Pastime today, June 4th. "It's a Blue Bird, it's got to be good."

William Darnall McDougle, son of Mrs. Anna McDougle, formerly of this city, is one of the graduates of the University of Kentucky this year, as also are Horace Bert Clarke and Lelah Vaughn Gault of this city.

CARD OF THANKS

We desire to thank our neighbors and friends for their kindness extended to us during the illness and death of my wife, mother and sister.

J. L. OWENS & SONS.
R. T. AND S. P. OWENS.
MRS. LYNDE OWENS HOOD.

Mr. and Mrs. Emil Weis of New Richmond, Ohio, were guests yesterday of their sons, Frank and Will, of this city. Mr. Weis returned this morning, but Mrs. Weis remained for a few days' stay.

PATRIOTIC PASTOR

Rev. S. K. Hunt of the Third Street M. E. Church Has Applied For Y. M. C. A. Army Position.

This city is about to lose for a time one of its most popular young pastors.

For some time the Rev. S. K. Hunt, pastor of the Third Street M. E. Church, has been convinced that it is the duty of every patriotic and able-bodied man to do all he can to help win the war, and with this in view the Reverend gentleman has made application to enter the service through the Y. M. C. A. Branch, with very flattering prospects of being accepted.

He placed this matter before the Official Board of his church last night, which very reluctantly agreed to grant him a leave of absence in case his application was passed on favorably, which will be in a few days, and when it is he will leave within a month, possibly having his headquarters in the West.

During his brief stay in this community, which has been almost two years, Mr. Hunt has become one of the most popular and well-liked ministers of this city and his going from our community will be a matter of regret but as his patriotism to his God and his country has called him to a wider field we feel safe in saying that his success there will be of that unbounded sort.

Mr. Robert Stephens and Mrs. Calla McKee spent Decoration Day with their sister, Mrs. Bettie Trisler.

SHORT-HORN BREEDERS ASSOCIATION ORGANIZED MONDAY AFTERNOON

Immediately after the cattle and chicken sale yesterday a number of prominent farmers of the Maysville district composed of Lewis and Mason counties, Ky., Brown and Adams counties, Ohio, held a meeting at the Chamber of Commerce rooms and organized Short-Horn Breeders Association, known as the Maysville district. Mr. W. B. Holton of Ripley, Ohio, was elected president and Francis McIntyre of Maysville, was elected secretary. Forty-eight members were enrolled. It is the intention of the organization to hold a sale in this city this fall. The meeting was addressed by Col. Yiernan and others.

EMMITT-McNUTT

Mr. Robert Emmitt of this city, and Miss Georgia McNutt of Dover, were united in marriage yesterday at the home of the bride in Dover, the Rev. Mr. Nichols officiating.

After the marriage ceremony the bride and groom left to visit relatives in Terre Haute, Ind., for a few weeks. After their return they will take up their residence here.

Mrs. Maude A. Farnsworth and Mrs. J. C. Everett are in Sewanee, Tenn., attending the graduating exercises, in which their sons, Messrs. John C. Everett and Robert A. Farnsworth will take part.

NINE AMERICAN VESSELS TOLL OF HUN U-BOATS

RAIDERS LURK FOR DAYS NEAR GREAT PORTS

Officials See Frantic Effort on Part of Germany to Stem Tide of American Troops Being Rushed Overseas—Fate of Crew of Carolina Unknown—Other Crews Landed.

An Atlantic Port, June 3—Hovering for two days over the sea where the American tanker William Rockefeller had been struck by a German submarine, a flotilla of destroyers and two seaplanes finally succeeded in capturing the U-boat, according to naval officers, and survivors of the disaster, who landed here today.

The sea for miles about the spot where the fatal blow struck the tanker was closely watched by destroyers and their accompanying seaplanes for any sign of the U-boat. The boats stayed in the neighborhood and waited for the U-boat to make its appearance.

At last the submarine which had stayed below the surface so long that its air tanks had become exhausted, rose to the surface and was netted.

New York, June 3—Nine American vessels were known tonight to have been sunk by German submarines off the North Atlantic coast since May 25. The largest was the New York and Porto Rico line Carolina of 8,000 tons, which was attacked Sunday night about 125 miles southeast of Sandy Hook. The fate of her 220 passengers and crew of 130, who took to the boats when shells began to fall about the vessel was unknown late tonight.

Besides the Carolina, the known victims of the U-boats are the Atlantic Refining Company's tanker Herbert L. Pratt, the steamship Winneconne of 1,800 tons and six schooners, the largest of which were the Hauptauge, a new ship of 1,000 tons, and the Edward H. Cole. The crews of these eight vessels have been landed at Atlantic ports.

See Admission of U-Boat Failure
Washington, June 3—Germany at last brought her submarine warfare to the shores of the United States, apparently in a forlorn hope of striking telling blows on this side of the Atlantic, and of drawing home some of the American naval forces from the war zones where the U-boat menace is slowly but surely being strangled to death.

In the attacks upon coasting vessels almost in sight of the New Jersey shore reported today, navy officers see a frantic admission from Berlin that the submarine has failed. American armed power is rolling overseas in ever increasing force despite the utmost exertion of the undersea pirates off the coasts of Europe.

The raiders have crossed the seas and lurked for days near America's greatest ports. They no doubt were sent to sink transports, but here again they failed. Blocked off the troop ships by convoy craft, they have turned in fury against defenseless coasters. In all the record of destruction they have written, the raiding party has struck at on vessels bound overseas and therefore armed for a fight.

Only ships that could not hit back have been attacked.

Up to a late hour tonight, the destruction of five sailing craft and the tanker Herbert L. Pratt was the record of losses officially reported to the Navy Department. The fate of the coastwise liner Carolina, which reported by wireless yesterday she was being shelled, is still unknown. The crews of some of the craft destroyed have been brought into port with a story of eleven days imprisonment aboard an enemy submarine.

During the period scores of troop and supply ships have passed in and out of the business of crushing the German army in France. The U-boat found no weak link in the chain of armed craft that guarded them.

Secretary Daniels went to the Capitol during the day, to tell members of the House Naval Committee that the raid designed to frighten the American people into demanding the

return of war vessels from the other side. He gave assurance that Congress need have no apprehension as to protection of the American coast, and that there would be no recall of forces from the war zone.

Tonight Mr. Daniels summarized the information reaching the Department as follows:

"Navy Department reports show that the following vessels have been sunk:

"Jacob M. Haskell, schooner, 1362 tons, sailing from Boston, sailing for Norfolk; 11 in crew, no passengers.

"Isabel B. Wiley, in ballast, net tonnage 611; crew 8.

"Hattie Dunn, of Rockland, Maine, net tonnage 365; in ballast, sailing for Charleston.

"Edward H. Cole, of Boston; tonnage 1,395; in ballast bound for Norfolk, crew 11.

"Herbert L. Pratt, steamship oil tanker; sunk about five miles south of Overfalls lightship, off the Delaware coast; 38 on board, 37 of crew rescued and landed at Lewis; one lost.

"All the crews of the above named vessels, except the one man lost from the Pratt, were rescued.

"It appears that the schooner Edna, which was found bottomside up several days ago, and towed into Lewis, Delaware, was also a victim of the submarine. The crew of the Edna have been landed in New York. The master of the Winneconne picked up the crew of the Hattie Dunn.

RED CROSS SALE

Held Yesterday Afternoon Realized \$2,109.50—Big Parade Precedes Auction.

The stock sales held here yesterday were attended by large crowds from Mason and adjoining counties and a number of large cattle transactions were made.

The committee in charge for the Red Cross Sale secured the Augusta Band for the occasion, which marched at the head of a large parade, composed of a number of High School girls dressed as Red Cross nurses, and a long string of farm equipment of all kinds from tractors to corn planting machines.

The shorthorn cattle, which were donated by Lewis, Mason, Adams and Brown counties, and the pure bred chickens given by patriotic citizens of this city brought up the parade in the rear. Promptly at 2 o'clock the crowd gathered in the Court House yard to witness the bidding. Col. Yiernan of London, Ohio, and Mr. H. C. Hawkins were the auctioneers.

Mr. Earl Newell of the county paid \$750 for one heifer, which was said to have been the pick of the lot. This is the highest price ever paid for a heifer in this county.

The sale of the cattle brought \$2,280 and the net sale result for the Red Cross of the cattle, hogs and

chickens was \$2,409.50.

The sale transactions were as follows:

Heifer No. 1—Bonnie Belle, purchased by Francis McIntyre, Mason county, for \$365.

Heifer No. 2—Lovely, purchased by John Marshall, Mason county, for \$150.

Heifer No. 3—Julia, purchased by J. R. Brannon, Mason county, for \$145.

Heifer No. 4—Lustre, purchased by James Brannon, Mason county, for \$290.

Heifer No. 5—Belle, purchased by Ed Bryant, Maysville, for \$175.

Heifer No. 6—Purchased by Earl Newell, Mason county, for \$750.

Bull No. 7—Purchased by Clarence Pickrell, Russellville, Ohio, for \$175.

Bull No. 8—Purchased by A. T. Davidson, Ripley, Ohio, for \$180.

Duroc Jersey hog, donated by L. T. Anderson sold to Thomas Brannon for \$25.

Poland China hog, donated by A. T. Davidson, Ripley, Ohio, purchased by Harry Wallingford for \$38.

Red hog donated by Perrine Owens sold to Ben Hull, Tollesboro, for \$25.

The pure bred chickens donated by Messrs. T. A. Duke, Charles Conrad, George Dodson, Charles Rosenstein and Judge Purnell netted a total of \$86.50. The first coop offered for sale was purchased by the E. L. Manchester Produce Company, who resold the purchase giving the proceeds to the Red Cross.

A pair of Homer pigeons donated by James M. Collins, Jr., brought \$5.

Miss Lida Berry will present a number of her pupils in recital Friday evening at 8 o'clock at St. Johns Hall on East Third street. Parents and others interested are invited to attend.

MASON CIRCUIT COURT

In the Mason Circuit Court yesterday J. L. Owens qualified as Administrator for the estate of Mary E. Owens, deceased. J. L. Owens also qualified as guardian for John Samuel and Powell B. Owens with R. T. Owens as surety on bond.

The appraisers for the estate were appointed and James Childs, Charles Wright and George Barbour qualified as such.

George, the bright little fellow that was here with Mr. Emil Weis when he ran the meat market on Market street, and who made everybody his friend, is one of the American soldier boys and is one of those lads that will get there, no matter what the obstacles are that are placed in his way.

There will be an important meeting of the Settlement Club Wednesday afternoon at 2:30 o'clock at the Health League rooms.

SILK GOODS AND THE TARIFF

Imports of silk manufactures for the first nine months of the fiscal year 1918, ended March 31, last, show a decrease from the nine months ended March 1917, of about \$5,000,000 in value, and about \$1,000,000 over the 1915 period. This is due in part to restrictions placed upon trade by the war trade board, imported silks being classed as luxuries, and in part to a more intensive application of man-power in Italy and France to the business of war.

These cargo space-saving restrictions, it is understood, have not yet been applied to imports from Japan, and it is noted that there has been a steady increase of Japanese silk manufactures invading the American market. Coincidentally there has been a steady increase in the amount of raw silk in skeins which we have imported from Japan, while the average pound import price has shown a marked increase. During the 1914 period, before the war broke out, the average pound price of raw silk in skeins imported from Japan was \$3.45, and we imported nearly 15,000,000 pounds. During the 1916 period we imported 17,300,000 pounds at an average pound price of \$3.60; for the 1917 period, 19,200,000 pounds, average price \$4.80, and for the 1918 period, 21,300,000 pounds, average price \$5.37.

The chief increases in silk manufactures imported from Japan are in the items fabrics woven in the piece, and wearing apparel. The value of the former during the 1913 period was \$1,376,000, twice that in the 1915 period, \$4,192,000 for the 1916 period, \$6,391,000 for the 1917 period, and \$6,790,000 for the 1918 period. Of the latter, \$411,000 for the 1913 period, \$680,000 for the 1917 period, and \$815,000 for the 1918 period. The total value of both items for the 1912 period, under protection, was \$1,800,000 woven fabrics accounting for 80 per cent of that total.

With regard to both items, imports from France, Switzerland and Italy show a marked falling off. It is evident that Japan is availing herself of this exceptional opportunity to establish a market for her silk manufactures here, and the special advantages she has in the way of home-grown raw material and exceedingly cheap labor, in addition to the free-will offering of the Democratic tariff law in the way of tariff-for-revenue only rates of duty, are all working to her benefit.

It is understood that the attitude of the present tariff commission is that in cases where one of our foreign competitors enjoys a special advantage over us in the production of a particular commodity, it would be the part of sound economies for us to give up that industry and purchase from the country so endowed. Under the policy of protection to American industries we have built up in this country a silk industry which, according to the 1914 census, numbered 902 establishments, employing 108,170 wage earners, value of product \$254,000,000, value added by manufacture \$109,569,000. Maryland is the southernmost State in which the silk industry is found.

If we are to accept the advice of Chairman Taussig and act upon it, we should dismantle these plants, force the wage earners into other occupations, and purchase our silk manufactures from Japan, France, and Italy, after the war. How does that strike your fancy, Mr. Wage Earner?

A Washington correspondent hints that the administration will try to add Roosevelt to its staff, along with Taft and Hughes, and thus quench the Colonel's criticism. Any such plan as this is being worked out without accurate knowledge of the Colonel, who never yet has been known to consume his own smoke, no matter what position he has occupied.

MERCY FUND CONTINUES TO GROW—RECENT RED CROSS DRIVE NETS \$166,439.291

Washington, June 3.—The American Red Cross second war mercy fund now totals \$166,439,291, with indications that when all reports from the drive of a week ago are tabulated, a \$70,000,000 over-subscription of the \$100,000,000 goal will be shown.

In announcing these figures tonight, Henry P. Davison, Chairman of the Red Cross War Council, said the returns show that more than 47,000,000 Americans—nearly half the total population of the country—contributed. Those giving to the first fund last year numbered only about 5,000,000.

Not only did every Red Cross division in the country over-subscribe, but one, the Gulf, turned in more than three times the amount of its quota, while five others, the Atlantic, Mountain, Northwestern, Southern and Southwestern, more than doubled their allotments.

The insular and foreign division quadrupled its \$300,000 quota. Every state attained its goal, five more than tripled it and 16 others and the District of Columbia more than doubled their allotments.

"The supreme feature of this achievement," said Mr. Davison's statement, "is to be found not in the amount of money subscribed, but in that it came from every part of the United States, from its cities, its towns, its farms, its factories, from the rich and the poor, regardless of sect, color, or political creed."

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

"I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui."

"I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui."

"By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone. I shall always praise Cardui. I continued taking it until I was strong and well." "If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial."

NO PIFFLING ENTERPRISE

(Collier's)

Gunmaking is a ticklish business—not dangerous, but just ticklish. It's mighty exact. A gun manufacturer must not exceed a variation of two one thousandths of an inch in a six-foot bore. Not every man who walks into a shop, his overalls under his arm, and announces himself as an expert mechanic, can build guns to as delicate measurements as that.

And a complicated business, too. A single disappearing gun, of a standard type adopted by our army, has, with its disappearing carriage but excluding its sights and accessories, almost 8,000 parts. A three-inch gun battery requires 3,876 tools, accessories and supplies which are simply part of its standard outfit. And yet our Government stands in great need of thousands of these guns—and their accessories.

An army officer made these things clear to a Chamber of Commerce man of Rochester. And the Chamber of Commerce called a conference of several dozen of the leading manufacturers of Rochester. To them the man in khaki made the problem clear. He said that the program for heavy guns for the army until July, 1919, would run to a cost of \$2,000,000,000—perhaps even more. He translated these figures into those of size. He said that within that time there would be needed at least 65,000,000 tons of new parts for these guns in addition to 45,000,000 tons of replacement parts.

Let me translate these figures still further for you. There are 65,000 railroad locomotives in this country. Let us assume their average weight to be 200 tons each—it is a very fair estimate. That means that the railroad locomotives together weigh some 13,000,000 tons—or just one fifth the castings required for the new parts alone of our heavy ordnance for the next 18 months of the year. We have embarked upon no piffling enterprise!

SUCCESS AT CANTIGNY AS INDICATION OF AMERICAN MILITARY SKILL

With the American Army in France, the confidence of the French public and morale of the French army are unshaken despite all developments in the field. The French spirit is unconquerable; this never has been as manifest as it is in these hours of grave crisis.

The success of the American troops in Picardy in capturing the village of Cantigny last Tuesday still is prominently mentioned in the news and editorial columns of the French newspapers. It has strengthened further the friendship and respect for the American troops.

The sight of American uniforms as Pershing's soldiers pass through the villages in the rear of the battle lines invariably is the signal for stormy ovations. The children salute and the women cheer and throw kisses to the khaki-clad fighting men from the United States.

The Cantigny success is interpreted in France as an indication of American military skill and tenacity and as a forerunner of still greater achievements. The failure of seven German counter-attacks to retake the Cantigny salient has increased the prestige of America.

Said a French officer today: "We are not concerned so much with the capture of Cantigny as with the ability of the Americans to hold such an exposed position without trenches. We are overjoyed at the dash and pluck and resourcefulness with which they held the place in the face of repeated attacks and heavy bombardments."

"I saw your men charge, singing and undismayed by their wounds. Those that I saw at the field hospitals expressed a single wish, to get back into the fight."

While it was a small engagement compared with the general activities, the fall of Cantigny is significant in that it shows the mettle of the Americans."

IN KENTUCKY

Invents a Bomb

D. G. Edwards, of this city, has just been allowed a patent on a bomb to be used from an aeroplane that explodes the height of a man from the ground at all times, regardless of the attitude from which it is dropped.

This bomb can be used as either plain explosive, shrapnel or gas. No doubt it will prove a very deadly missile, as the novel feature of exploding at such height utilizes the full energy of the explosives on the surrounding objects to be destroyed—Hopkinsville New Era.

Didn't Last Long

W. L. McCarty, who had a surplus of tomato plants, set a box containing several hundred tomato plants in front of this office Wednesday and placed in the box a card with these words: "Free; help yourself." They hardly lasted as long as Pat remained in the army—Stanford Interior Journal.

Leased For Mining

Much of the land in Shaker Bend across the river from Jessamine county has been leased to a New York company which proposes to mine for calcite, fluorspar and other minerals, to be found in the limestone foundations of this land. This company expects to put in a large reduction plant with a capacity of 200 tons daily and will tunnel through the hills for a distance of two miles. They began operations last Monday morning on the McGee branch on the lands of R. S. Coghill and will tunnel under the farms of M. D. Gordon and his mother about 20 feet below the surface. There is a fine prospect for these minerals in that district and there is a big demand for them at a good price. The operation of the plant contemplated will mean a large development for Shaker Bend and will give employment at high wages for many men.—Wilmore Enterprise.

Effects of the War

There were some forty-two examinations Friday and Saturday of last week for county diplomas, and of this number forty were women. This can be seen the effects of the war in the inroads made in the teachers' fraternity, coupled with the high prices paid for wages in various manufacturing plants over the country.—Grayson Journal.

Pelican As a Pet

There was considerable excitement at the residence of Mrs. Della Lane Monday afternoon, when Mr. W. H. Burt, a real estate man from Hopkinsville, who is here on a visit to his brother, Richard Burt, brought in a large white pelican, which he purchased at East Cairo, in this county, and gave to Mrs. Lane as a pet. A large number of our citizens, who had never seen a pelican went down to see the bird. It is a good specimen, and Mrs. Lane is very proud of the present, which she will keep as a pet.—La Center Advance.

Diamond in the Cream

On last Saturday night, during the rush in serving the patrons at the Palace fruit store, a dish was used in serving ice cream in which Mrs. Urney, the wife of the proprietor, had placed her diamond ring. The finder of the ring doubtless thought that it was lost in the can of cream at the factory. Mrs. Urney is much distressed over the loss of her ring and will pay a liberal reward for its return.—Pineville Sun.

METHODISTS PROVIDE REST ROOMS IN ROME

In response to a request from a committee of women connected with the British Embassy in Rome, Dr. Bertrand M. Tripple, superintendent of the Rome district, of the Methodist Episcopal Church of Italy, opened the Sunday school and social rooms of the church for use of soldiers and sailors of the Allied Armies passing through Rome. These rooms serve for rest and recreation. Shower baths have been installed in the basement. "What this means to tired and sometimes sick men that come in from long, hot, dusty rides in summer weather and Italian trains can be easily imagined, said a member of the National War Council of the Methodist Episcopal Church."

The first men welcomed here were 125 Scotch soldiers. They gave the house a real housewarming, according to the report, and were joined in songs and festivities by Italians.

POVISIONS MADE BY THE GOV.
ERNMENT OR HANDLING THE
WOOL OF THE UNITED
STATES

Military necessity has caused the United States Government to assume control of the entire wool clip of the country and to have a prior right to acquire the 1918 wool clip. The War Industries Board has issued a pamphlet which explains the regulations under which the farmer may dispose of his wool. This pamphlet has been sent to all parts of the United States. There are certain further particulars which Kentucky farmers would like to know regarding the exact method of procedure in disposing of their wool. In order to get these details and a fuller knowledge of the methods to be pursued, the College of Agriculture has sent a representative to Washington to confer with the Wool Committee of the War Industries Board and in the course of a few days a full and concise statement will be issued thru the public press by the College of Agriculture, giving further detailed information and suggestions to farmers and to dealers regarding prices, methods of handling, and other matters.

In the meantime the College urges that nothing is to be gained by undue haste on the part of the farmers in selling their wool. They are assured that fair and uniform treatment will

Do You Know The Fine Flavor of POST TOASTIES

be given to all parties concerned. In the official bulletin recently issued by the War Industries Board, the following advice regarding the disposal of wool is given:

"Growers who desire to do so will be allowed to pool their clips in quantities of not less than minimum carloads of 16,000 pounds and consign the wools so pooled as one account to any approved dealer in any approved distributing center. Growers are urged to adopt this latter course through county agents or others, thus eliminating the profits of one middle man."

While under the regulations farmers are permitted to sell lots of less than 1000 pounds of wool to authorized dealers, the College of Agriculture advises that wool be assembled in county pools or pools embracing a more extensive territory, the object being to facilitate handling and give the largest return to the grower.

ARMIES OF THE PAST

(Columbia State)

In our Revolutionary struggle, when we were but a feeble folk, we managed to collect a far greater army in proportion to our population. First and last, we had in the field some 310,000 men, while the population could not have been more than 3,000,000, or an average of one soldier to every 13 persons. At a similar proportion, we should now have an army of more than 7,000,000.

In the War of 1912 we raised an army of some 600,000 when the country's population was only about 7,200,000; or one soldier to 12 persons. This would indicate an army for this great war of at least 8,000,000.

In the War Between the Sections, it has been estimated that the Northern States, with a population of 22,000,000, raised 2,860,000 men, or about 1 in 8. This proportion would give an army of over 12,000,000 for use against Germany.

The South, in the same war, out of a white population—from which alone it drew its armies—of something like 8,000,000, put into the field 1,100,000, or a little more than 1 in 8. This also indicates an army for use against Germany—should it be needed—of at least 12,000,000 or 13,000,000.

In the face of these figures, con-

LET POTATOES FIGHT

fronted by these achievements of America, in arms in times past, our little array in France, after a year of effort, is not entirely amazing—or satisfying.

FAIR AND COOLER

(Collier's)

This war—essentially just as it is, and a war against dishonor and perverted national egoism—must not have as one result the relaxing of our own standards as a nation that believes in fair play and in free law for rich and poor, popular and unpopular, native and naturalized and alien. Much loose talking by pro-Germans, before we got into the war, failed to blind our nation to national interest and international right. Much loose talking by those who, following the line of least resistance, see crimes, spies and plots on every side—as a frightened child sees bogeys and as a drunken man sees double—must not today blind us to realistic and the right. Such happenings as the murder of Robert Prager of Illinois develop out of a state of mind in which people say: "The Government is giving us no protection; spies are blowing up our factories; they are giving information to Germany; our boys are being shot in the rear. Our constituted authorities are doing nothing to protect us against all this, and we will take the law into our own hands."

It is the Attorney-General of the United States who makes this analysis of the situation, and urges lawyers everywhere to do their best to maintain the sanity of well meaning but excitable patriots.

NO OCCASION FOR ALARM

(New York World)

In his order barring certain non-useful occupations to men of draft age holding deferred classifications, Provost Marshal General Crowder has given employers reasonable notice to prepare themselves. They will have time to find substitutes for the registered men between 21 and 31. The new order does not go into effect for nearly five weeks. The local boards cannot enforce it overnight, and in any case they will have large powers of discretion.

The Government needs the services of all men of draft age in the army or in productive labor. It cannot be pretended that the occupations to which the new order applies are of equal importance with those of shipyard worker or munition-worker. In the present emergency, somewhere the line must be drawn with regard primarily for the nation's interests. A young bartender, club attendant, domestic servant or clerk can be employed to better advantage in many ways. Fortunately unlimited opportunities are open to him because of the extraordinary demand for labor. Upon the idlers and loafers no sympathy need be wasted. They must make a nearly choice and find suitable berths or enter the army.

The readjustment of business to war conditions has been under way for a year. It will be a continuous process so long as the war lasts. Everywhere there has been a general shifting from one occupation to another. To fill the gaps caused by men leaving civil life for military duty, large numbers of women and younger and older men have been recruited. The hotel-keepers, who seem to be

most disturbed over the Provost Marshal General's order, must fall back upon their reserve and make the best of the situation. The "combing-out" has just begun. The number of men affected is probably much smaller than is commonly thought, and in the natural order of things the change will be gradual.

DUTY!

(New York Sun)

On that day when in France soldiers were paying high military honors to the memory of a daring aviator a brave comrade lost here the father was saying good-by to his fourth son going over there.

"But I am glad," the father of Major Lufbery said, "that I have sons to give. The war must be won!"

Noble words! There were tears in the father's eyes, but his sorrow, his pride, all were put aside in the thought of the grave duty—

"Stern daughter of the voice of God"—which now is America's and never more simply commanded: The war must be won!

THE EDITOR EXPLAINS

(Everett (Kan.) Enterprise)

The paper has not as much news as it would of had if the two Everest roughnecks had not entered the office intent upon making a rough house out of our place of business and succeeded by making "pi" of the news that was set.

CONVINCING TESTIMONY

Given By Many Maysville People.

Experiences told by Maysville people—Those who have had weak kidneys—Who used Doan's Kidney Pills—Who found the remedy effective—Such statements prove merit. You might doubt an utter stranger. You must believe Maysville People. Here's Maysville proof. Verify it. Read. Investigate. Be convinced. You'll find why Maysville folks believe in Doan's.

George H. King, Prop. grocery, 615 E. Second St., says: "I have used Doan's Kidney Pills off and on for several years, getting them at Chanslor's Drug Store and I have been greatly benefited by them. Sometimes my kidneys have been out of order and the kidney secretions have been irregular in passage. I have suffered severely with aches through the small of my back. When I have been in that way, I have used a box or two of Doan's Kidney Pills. They have never failed to cure the attack in great order."

Mr. King is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. King had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

Probably the average woman's idea of pot luck is to have to wash up the kitchen things after a boiled dinner.

SUGAR REPORTS

Manufacturers in This City Should Not Fail to File Their Required Statement With the Food Administrator.

It is announced from Washington that the control of sugar allotted to manufacturers will, so far as can now be seen, continue throughout the year. It is necessary, therefore, that all manufacturers of less essential food products using sugar, must file with the Sugar Division of the Food Administration of Kentucky, before June 10th, the required statement showing sugar used, sugar on hand and their requirements to July 1st, and showing their present situation in regard to sugar, in order that the sugar division may know they are conforming to the Administration rules.

Unless these reports are filed with the Sugar Division of the Administration before June 10th, no sugar will be allotted for the balance of 1918, to manufacturers failing to make such report. If any manufacturer of these products has in stock a large amount of sugar and thinks thereby he has no occasion to apply to the Food Administration for sugar certificates, and does not take cognizance of the rules and make his application, he will likely be proceeded against under the Food Act.

The less essential products referred to above include manufacturers of condiments, of soda water, confectionery and candies, of chocolate, of soft drinks and beverage syrups, fruit syrups and flavoring extracts, of sweet pickles, of chewing gum, of cocoa, of invert sugar, of wine and cereal manufacturers, bottlers of soft drinks, soda water fountains and sellers of soft drinks.

The blanks to be filled out must be on Government form and can be obtained from the County Food Administrators of each of the counties in the State of Kentucky. They should be filled out accurately and filed with the Sugar Division, Herman D. Newcomb, Chairman, 701 Inter-Southern Building, Louisville, Ky.

MARIA LOUISE WADSWORTH

Miss Maria Louise Wadsworth, daughter of Mr. and Mrs. William Wadsworth, died yesterday afternoon at 3 o'clock at her late home in Washington. Funeral services will be held Wednesday afternoon at 2 p. m. from the Baptist church.

ALLIES STIFFEN LINES

And Slow German Advance—Marked Lessening of Vigor of Enemy's Drive During Past Two Days—Heavy Toll of Lives Paid For Gains Made.

New York, June 3.—Although it cannot be said that the Germans in their new offensive have been definitely stopped there is, nevertheless, a marked lessening in the speed and their gains since Saturday, have been relatively small when compared with those of previous days.

And, according to the accounts of unofficial observers wherever they have been able since the stiffening of the Allied lines to attain new positions and exorbitant price in lives has been exacted from them.

So great have been the casualties, so great that the Prussian Guard divisions, the pride of the German crown prince is declared to have been withdrawn from the battle.

Particularly hard fighting again has been in progress between Soissons and Chateau Thierry where the Germans are endeavoring to push further forward, toward Paris, but not only have the French troops almost everywhere successfully withstood the onslaught, but on several sectors they have taken the initiative and given ground. As a whole the situation along this line is relatively unchanged.

The German war office at last has admitted that the Allied line on the west has been reinforced by fresh units but it asserts that they have not been able to hold the positions to which they were assigned. Nevertheless, the fact is patent from an observation of the war maps that almost everywhere in this region the German line, for the moment at least, is being held.

From Chateau Thierry eastward along the Marne and thence to Rheims the situation is unchanged from that of Sunday. The enemy are on the northern bank of the Marne for a distance of about fifteen miles, but as yet he has made no attempt to cross the stream.

The news of what it has cost the German armies in men killed, wounded or made prisoner in the present battle is reaching Germany through a no less authoritative channel than the Norddeutsche Allgemeine Zeitung. This journal prints a letter from a German colonel at the front who urges the people to bear their losses with patience and confidence.

Little fighting aside from the usual small affairs between raiding parties is taking place on the Flanders front. The British have carried out successful raids on several sectors here and taken nearly 300 prisoners.

In the Italian theater the operations continue in a minor character. American aviators are giving good account of themselves over the battle line in France. Since April 14, when they first took the air in offensive operations, they have shot down at least 33 enemy planes and themselves lost seven.

The ladies of the First M. E. Church, South, will meet at the church Wednesday afternoon at 1 o'clock sharp to sew for the Belgians. Come!

When you know that you should dismiss coffee, try

INSTANT POSTUM

The modern American Drink that so many now are using.

COUNCIL PROCEEDINGS

City Council met in regular monthly session last night, with all members present.

Mayor Russell reported he had collected during the month of May \$91.41 for licenses.

The report of the Police Judge was as follows:

Fines paid	\$108.20
Worked out	11.50
The report of the Claims and Accounts Committee was as follows:	
Alms and Almshouse	\$281.99
Gas and Electricity	758.47
Boarding and Guarding Prisoners	31.65
Fire Department	433.40
Chamber of Commerce	25.00
Police	496.71
Internal Improvement	523.61
Miscellaneous	74.75
Public Library	25.00
Mason County Health League	25.00
Mission Home	175.00
Colored Mission	12.50

The City Treasurer reported a balance of \$872.39.

The Fire Chief reported that there had been one alarm of fire answered during the month of May.

Wharfmaster C. M. Phister reported the total amount of wharfage collected \$46.35.

The following building permits were granted:

Robert Harris—to remodel and repair house on corner Main and Vine streets, Sixth Ward.

Tilden Wood was granted a permit to erect a veranda to his house, situated on Chester street, Sixth Ward.

Chief of Police Harry A. Ort reported having collected \$283.80 delinquent poll tax.

A communication from the Woman's Clean-Up Committee recommending that a municipal pigery be established and the garbage of the city be disposed of in this manner was referred to the Proposition and Grievance Committee.

A communication from residents of the Fifth Ward asking that a covered sewer be built to carry off waste water from the ice factory. The matter was referred to the Internal Improvement Committee.

With the exception of one all belated bills were allowed and these were referred to the Claims and Accounts Committee.

Messrs. John Fansler, James Purdon and Frank Clark were unanimously elected to the City Board of Health for the ensuing term of three years.

The Ways and Means Committee of City Council at a meeting held at Council Chamber Monday, June 3rd, fixed City Tax Rate for 1918 at \$1.50.

The tax rate remains the same as year 1917, notwithstanding loss of over \$500,000.00 listed in year 1917 as intangible, which have been exempted from local taxation by act of special session of the Legislature of Kentucky 1917, and taxed for state purposes only at 40 cent rate. This loss of intangible has necessitated a slight increase in assessment of real estate, and saved an increase of tax rate over \$1.50.

The ordinance for the City Budget for the year 1918 was read and unanimously passed.

Member Dodson made the motion that suit be brought against all delinquent poll tax payers. This motion was carried and left in the hands of City Attorney Daly with power to act.

The Ways and Means Committee were authorized to issue five emergency bonds of \$500 each.

Member Hunsicker asked for more time on the wharfage question, which was granted.

Member Orr reported on the heating apparatus which has been installed in the City Almshouse and stated that the apparatus was in good condition.

Member Davis made the motion that several sidewalks be leveled as they caused pedestrians to stumble. This was placed in the hands of the Sidewalk and Gutter Committee with power to act.

The Young Peoples' Missionary Society of the First M. E. Church, South, will meet this evening at 7:30 at the home of Mrs. W. B. Campbell.

The Ladies' Aid Society of the Christian Church will meet Wednesday afternoon at 3 o'clock with Mrs. George Scott, 406 Forest avenue.

Mr. and Mrs. Condrey of Ripley, were business visitors in this city yesterday.

Mrs. Sallie P. Adair is visiting relatives and friends in St. Louis, Mo.

OUR COLORED CITIZENS

Aecia Lodge No. 24, F. and A. M. will hold its regular meeting Wednesday, June 5, instead of the second Wednesday. All members are requested to be present; business of importance.

C. N. BRAXTON, W. M.
Harry Combs, Secretary.

2500 WAR SAVINGS STAMPS SOLD YESTERDAY

Mrs. Clement French, chairman of the War Saving Stamp Campaign here with several young ladies of the town aiding her sold \$2600 worth of War Saving Stamps yesterday. The young ladies assisting here were, Miss Minerva Stockton, who led with a sale of \$900 worth. Mrs. Cecil Ellis was second in the sales selling \$400 in stamps. The other assistants were Mrs. George Ballou, Miss Mildred Rains, Miss Margaret Owens, Miss Elizabeth Luttrell and Miss Zoraya Cochran.

Mr. J. Barbour Russell purchased \$1000 worth of War Savings Stamps, which is all one buyer is allowed. The ladies are starting a bond holders club and expect to add more than Mr. Russell to their list, who so patriotically started the club.

"Parentage", the big seven reel feature which will be shown at the Washington Opera House this evening is an out of the ordinary film from many angles.

Memories of good old school days are brought home in a most convincing and delightful way as the children do the things which we all did during the days of "reading, writing and arithmetic."

Film fans often wonder how these children can be made to act so naturally. It requires a great deal of time and attention to procure the results which will be so wonderfully shown in Parentage.
